Grade 3-6: Write a short story on this page to match the heading below (grades 3&4 will be judged separately to grades 5&6). Please keep it on one page only on this template.

## "GILBERT THE GECKO EXPLORES THE WORLD"

Once upon a time, Gilbert the exploring gecko was reading the newspaper when he came across an article that read, "gold mines found in India". It explained that gold mines had been found in India in different areas. Gilbert rang his friend Henry the Penguin and asked him if he wanted to go around to India with him to gold-mines, the reply was "would I?" "good," said Gilbert, "I'll meet you at the airport tomorrow."

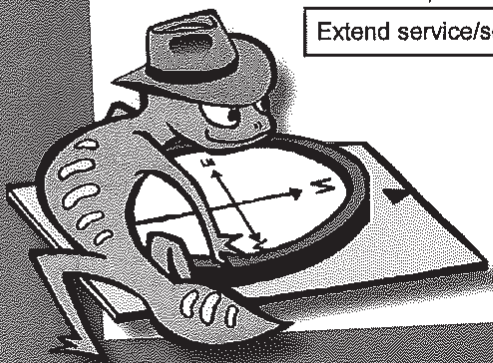

2 days later, they were in the Indian gold mine panning for gold. They found were \$2 worth. So they went for a walk around the forest and found the BIGGEST lump of gold they had ever seen. They were so amazed that they tried to lift it up, but it was about 100 pounds. They went back and told a builder what they had found, he quickly got down from his ladder and went to help them. Soon enough, they came back with the gold. ~~the next day~~

The next day they were in the papers. BIGGEST Gold Nugget discovered! where will they find gold next?..

Please complete the details below. Parent details are kept confidential.

Extend service/school: Kew Primary.

Child's year level: 5 (Grade)
