

## Media Release

For immediate release  
12 March 2010

### No time to rest for a Superhero or Magical Wonderland creature at Extend!

While the teachers had a break from the classroom, there was no time to rest for the super heroes and magical wonderland creatures at Melbourne Montessori School, Caulfield on their school Curriculum Theme Day. On Friday 5 March, the trainee superheroes and magical wonderland creatures at Extend Outside School Care (OSHC) got to experience a world saving day of activities preparing them for their next mission! Essential activities included making masks to defend the identities of the trainee superheroes, as well as outdoor games to ensure the magical wonderland creatures were in their best physical shape to fight villains and defend the world from evil!

For over 20 years Extend's enthusiastic and committed staff have been providing quality Before & After School Care to schools nation wide. "The children within the Extend OSHC program have a unique opportunity to participate in new adventures in a safe environment", states Daren Stevenson, Extend Director. "This enables them to develop their confidence through a range of exciting activities and experiences". Specific activities are chosen to facilitate learning and creativity while also being educational and fun. In addition to this, well qualified and experienced staff deliver these activities at high quality and kids are in the best hands possible at Extend. Extend delivers curriculum theme days at participating primary schools from 8:00am – 6:00pm during the school year.
