Make a billy cart, see the planetarium, or prepare for the grand final this Spring school holidays!

This spring season primary school children will be occupied with the new art, science, cooking and sport activities and incursions at Extend holiday programs across Melbourne. New activities include constructing mechanical cars, making a phenakistoscope and weaving woollen door hangers. Brand new incursions are also scheduled including Billy Cart Making, Hands on Science, and the Cosmodome travelling planetarium.

Kids will also have the opportunity to get into the spirit of the AFL grand final these holidays. "I don't think we could call ourselves 'true blue' Australians if we didn't offer footy themed activities these holidays!" claims Darren Stevenson, Extend Director. "With the grand final right in the middle of the spring school holidays we anticipate that kids will be getting quite excited, so we've included Footy Fever Crafts these holidays and also transformed a cooking activity so that kids get the chance to make rice bubble crackles that are shaped and decorated to look like mini footballs." Extend's plethora of activities ranging from science to drama means that no children miss out on their chosen interests.

To find out what's on visit extend.com.au for brochures, enrolment forms, timetable information and detailed activity descriptions for each holiday program. Extend will run the Spring 2010 school holiday program at locations across Melbourne including Caulfield, Essendon, Kew, Mt. Eliza, Ormond and Sunbury: Monday 13 September to Friday 1 October (dates may vary according to school).
