Discover African Drumming, become a Rock Star, and experience the Medieval times this Summer Holidays!

This summer Extend will deliver up to 30 days of jam-packed school holiday programs for primary school children across Melbourne. Scavenger Hunts, Kite Building, Balloon Science, and a "Junior Master Chef" cook-off are some of the activities scheduled in the summer program.

"The summer holiday program is a huge one, with some schools finishing the school year in early December, we have had to work extra hard in programming to ensure the entire schedule is entertaining and includes a wide range of activities. Implementing activities and lesson plans for thirty 10 hours days is quite challenging, particularly because each activity we implement is focused on high-quality educational fun," states Darren Stevenson, Extend Director. "Our aim is to provide children with positive experiences that will enhance their life learning. Although it proves a challenge for planning such big programs, we know we can be proud of the end result and deliver a fantastic high quality program."

To find out what's on visit www.extend.com.au for brochures, enrolment forms, timetable information and detailed activity descriptions for each holiday program. Extend will run the Summer 2010/2011 school holiday program at locations across Melbourne including Caulfield, Kew, Mt. Eliza, Ormond and Sunbury from Tuesday 7 December to Thursday 3 February (dates vary according to school). **Closing dates apply.**
